

## Marine Arctic Geological Expedition

---

### STOP WORK AUTHORITY POLICY

#### Objectives:

- Prevent situations that can result in serious incidents.
- Safe performance of any work.

#### Obligations of the Company Management:

- Create conditions when each employee of the Company is aware of and assumes responsibility for his/her personal safety and safety of others, having the right to stop and/or refuse to perform any operation that is unsafe for the employee or others.
- Line managers shall support employees who reasonably exercise the stop work authority;
- All work stops shall be investigated to develop risk reduction actions;
- Works can be resumed after elimination of the causes of suspension;
- This Policy provide each employee with the right to stop and/or refuse to perform any operation that is unsafe for the employee or others;
- Employees shall be aware that no job is so important that we can't take the time to perform it safely.
